Swiss Stilus and Humly have established a new distribution agreement

The Swiss AV distributor Stilus and Humly has announced their new distribution agreement and collaboration in Switzerland.

Uster, Schweiz, 31. January 2023

The expansion of Humly Solutions AB in the European market continues.

Humly Solutions AB continues to expand internationally and especially in the European market. Last year Humly partnered with different AV distributors in Europe and now Stilus in Switzerland will be a new partner for Humly.

Daniel Assarson, Sales Director, at Humly says:

- We are really happy to be working together with such an experienced and innovative company in Switzerland. They have a profound knowledge in the AV-industry and know how good technology can create amazing values for users. Stilus is a leading Swiss solution provider and we think that the products of Humly, with our workspace solutions will suit the Stilus portfolio perfectly.

Humly is a leading manufacturer of modern workplace solutions. Their technology has been used in more than 200.000 meeting rooms worldwide since 2009. The multiple Design Award winning Humly Room Display is the best-in-class display available on the market for room booking and they also provide a wide range of different Workplace Solutions, a suite to manage office spaces and resources in modern workplace environments.

- Workplace resources are an important asset. Humly understands how to digitise this resource in a smart and accessible way, allowing the employee to focus on what is important, thanks to the ease of use. Stilus is proud to establish Humly on the Swiss market and to accompany companies on their way to use workplace resources more efficiently," says Severin Manz, General Manager at Stilus.

About Humly:

The Humly product range includes workplace solutions for:

- Room booking
- Desk booking
- Resource booking
- Wayfinding
- Floor Planning
- Visitor management

Humly is a "Workplace Experience" company that releases time for knowledge workers and streamlines the use of resources in modern workplaces with self-developed meeting room screens and flexible solutions for booking desks and other resources.

By facilitating frequent recurring activities and reducing the number of possible disruptions in the office, Humly creates value by saving time and reducing frustration for end users while optimizing the use of the office's fixed workspaces and workplaces.

Humly's focus on high security and data integrity in combination with active environmental work and focus on design has made the company a popular choice in several customer segments in both the private and public sectors.

On the security side, Humly has, in addition to solid work since its inception, collaborated with one of Sweden's leading IT security companies for recurring security testing. In the environment, Humly works continuously with improvements in products, packaging, logistics and other areas to offer attractive products that last a long time and whose life cycle has as low a negative climate impact as possible.

In design, Humly's proprietary displays have won several prestigious design awards, including the Red Dot Product Design Award, the IF Design Award and the Japanese Good Design award.

Humly was born as a global company with establishments in Europe, Asia and the USA and provides solutions and services worldwide through local partners. For over a decade, the team behind Humly has been pioneering a new segment in the smart workplace industry and has extensive experience in creating high-quality products for the modern office.

Humly is part of the privately owned Certus group, which develops and produces smart products and invests in existing and new growth companies.

About Stilus:

Stilus is a leading Swiss brand developer and solution provider of audiovisual products and services.

Stilus is 100 % Swiss owned. Swiss culture is in our DNA. We understand regional differences and our team provides tailored support in all national languages.

Our guiding drive is the needs of our customers. Long-standing and profound partnerships form the basis of our success. Together with our enthusiasm and playfulness for AV technologies, this motivates and drives us to top performance. Technology that inspires and puts a smile on users' faces is our goal. As a central element in the solution package, we offer our partners reliable and diverse logistical and technical services to ensure ongoing satisfaction.

Stilus' market services are surprising, individual and of the highest quality. For Stilus, changing market conditions are exciting opportunities for the success of our partners and our team. Constant innovation and changing demands drive us to develop forward-looking and groundbreaking solutions for our customers.
