

Wireless Presentation and Collaboration System
Make it Simple. Make a Connection. Truly Collaborate.

FEATURES

- Real-time screen mirroring of a smartphone or tablet's (iOS/Android™)'s small display onto the big screen for easy viewing and content sharing
- QR code log-in authentication support for quick system sign-in from a smartphone or tablet
- Free intuitive and user friendly NovoPresenter application for support Windows®, Mac®, Chrome, Android™ and iOS
- Up to 64 users can be connected, and 4 users can display at the same time on the split screen for content sharing, information comparing and interactive collaboration. Can be moderator controlled
- Display content in HD 1080p @60Hz with support for next generation UHD resolution (3840 x 2160) display
- On-screen annotation tool for real-time comprehension
- Ease-of-use is assured when using the Launcher that plugs in to a USB port that allows for press and display of the users screen. No need to install software
- Display content directly from the built-in storage, microSD slot or USB flash drive without the need to connect a PC
- Conveniently access cloud based resources and services (Google Drive, Dropbox) for on-demand content integration and file storage, and also directly stream YouTube videos
- Embedded feedback response and voting system ensures comprehension and engagement in the classroom
- Dual network support (Wireless and Ethernet) that accommodates Guest/Corporate or Faculty/Student networks
- Network-based remote management and maintenance software for ease of deployment
- Kensington® security slot to prevent theft or movement of the device

NovoPRO is a small, simple and cost effective device for wireless connectivity and sharing presentations during meetings. It enables you to wirelessly connect all devices - laptops, tablets and smartphones alike, and will also easily integrate with your existing infrastructure, which means you don't need to purchase any additional equipment. What is great – setup is really simple and user friendly.

SPECIFICATIONS

Product Compatibility	All Vivitek projectors or displays with HDMI input
Processor	ARM A9 Quad-Core @1.6GHz
Display Resolutions	XGA (1024 x 768), WXGA (1280 x 800), WUXGA (1920 x 1200), 720p (@60fps), 1080p (@60fps), UHD (3840 x 2160@30fps)
Memory/Storage Expansion	Memory: DDR3 1GB Internal: 8GB (eMMC Flash) (5.1GB User Availability), External: microSD Card Slot (Up to 32GB), USB Flash Drive (Up to 32GB)
Network Connection	WiFi: 802.11 b/g/n/ac (2.4GHz & 5GHz Frequency Bands), 2T2R
Inputs/Outputs Connection Ports	USB2.0 Type A, HDMI v1.4, microSD Card Slot, RJ45 (10/100 Ethernet) , micro-USB Power Input (5.35V/2A), I/R Receiver
WiFi Sharing Modes	Hotspot Mode: Up to 8 participants Client Mode : Up to 64 participants
Media Formats Supported	Images: JPEG, PNG, GIF, BMP Video: MP2, MP4, H.264, VC-1 (WMV) (Support up to 1080P@60FPS , UHD@30FPS) Audio: MP3, WMA, AAC Other: Scrolling text with custom visual effects
Output Orientation	Landscape
Button	Reset
LED Indicator	Green (System Power On), Blue (Network Activity), Red (System Stand By)
Power Supply/Consumption (AC Adapter)	100 ~ 240 V AC, 50/60 Hz, DC output: 5.35V and 2A, 10W
Operating/Storage Temperature	0 ~ 40–C (Ambient Temperature), -20–C ~ 60–C (Ambient Temperature)
Accessories	USB Power Adapter, HDMI-to-HDMI Cable, Micro-USB-to-USB Power Cable, Remote Control , Mounting Bracket
Optional Accessories	NovoPro Launcher QL200 (1 Set: 4 Launchers, 1 Cradle)
Multi-Platform OS Application Support	Windows® 7 and above (32-bit/64-bit), Mac® 10.6 and above, iOS 6 and above, Android™ 3.2 and above (4.2.2 and above is recommended), Chrome OS v37 and above
Security Solutions	Kensington® Security Slot; PIN Access; Setting Password Projection; Enterprise-Level Encryption AES-128
Weight	128g (0.28lbs)
Dimensions (L x W x H)	120mm x 75mm x 26mm (4.7' x 2.9' x 1.0')
