

Floor column 120cm centre screen

052.7320 Floor column 120cm centre screen for (touch-) display max. 120 kg

This is a floor column for (touch-) flat screens with a VESA mount integrated. The column requires to be installed close to a wall, after which it can be fastened with the wall mount. Due to this the weight is strained on the floor. Behind the mounting function we reserved space to position a mini-PC or thin client, that can be locked by a lid. Where required, the mounting pattern can be extended to VESA 800-400 with an accessory, and possibly the solution can also be used as five-surface solution.

Floor column 120cm centre screen

Features

Maximum length: 1200 mm (centre screen)

Weight: 25.00 kg
